Reapportionment Showdown Nears In Legislature

BOISE (AP) - The Idaho House of Representatives scheduled an afternoon test on reapportionment today but the Senate put off any showdown until Thursday Senators met in party caucuses throughout the morning with backers of various reapportionment plans attempt ing to line up support. Sen. Lloyd Barron, R-Camas, Republican caucus chairman, said no agreement was reached on how the bills would be handled and he said there was no indication of the support each measure Forces in

might have. Sen. Harold Lough, D-Latah Democratic caucus chairman, said his party agreed to suspension of rules only when all reapportionment bills have been introduced.

Barron and Lough both said they hoped voting could begin ate try today to defeat a propos-

they hoped voting could begin Thursday.

There appeared an obvious shift of sentiment, particularly in the Senate, where a 35 senator-70 representative plan gained approval during the second special session, which ended last Saturday night.

A number of small county senators who supported that plan indicated they were now backing a 52-senator plan which would be coordinated with a 65-member House.

The 52-senator plan calls for creation of 25 districts, with subdistricts in the multi-legislator counties.

Democrats in the Senate reiterated their stand that they will insist on subdistricting. That could result in the same deadlock that brought failure to reapportion at the second spe-

cial session.

The Democrats' insistence on subdistricting ran headlong into the opposition of 32 Republicans defeated by only three votes in in the House, who favored elec-tion of legislators at large with

in counties.

The three reapportionment bills introduced in the Senate Tuesday, plus a proposed constitutional amendment, were returned to the floor in printed form and then referred to the Senate State Affairs Committee.

That put them in position for debate at any time, under suspension of the rules.

Washington (AP) — The government is seeking to require nine new safety features on the cars, trucks and buses it buys. The General Services Administration, announcing this Tuesday also called for representatives in 27 districts.

For two months they will be the only women aboard a 410-foot research ship as it zigzags across the ocean.

Floating pack ice will be the nearest thing to solid ground. Both are looking forward to their expedition. They have only

one worry-seasickness. "We are taking along seasick pills and a psychological therapy theory that we won't have to use them," said Mrs. Kenneth to use them," said Mrs. Kenneth W. Walls. Dr. Walls and Mrs. Spencer Defoor, her assistant, said their husbands consented to

the trip. Neither has children. They will leave Atlanta March 14, aboard the USNS Eltanin, a National Science Foundation ship and complete the voyage at Auckland, New Zealand, May 30. A \$20,100 grant from the Na-

switching to Ford every day, and no wonder. Fords do things other cars can't. - You can have a radio in any car, but Ford offers a Stereo-Sonic Tape Player option that turns your car into a concert hall with music of your choice. • Most station wagons have a one-way tailgate, but Ford's Magic Doorgate swings out like a door for people and down like a tailgate for cargo. - Most cars offer a choice between manual and automatic shift, but Fairlane's GT/A Sport Shift works both ways. ■ Visit your Ford Dealer and test-drive a '66 from Ford.

What surprised us was that most of it favored exclusion of parochial schools with the association.

Our position is this. If boys go to parochial schools with the idea of combining the precepts of religious training with the three R's, we favor their competition right down the line. If other things influenced their thinking, such as athletic recruiting specifically, they should remain excluded.

There were points brought forward in favor of parochial membership. One area educator, definitely for bringing them in said it would be the best way of controlling cases of recruiting.

To build our E.M.S. program, we start with people who have the ability and desire to serve the farmer. This is backed with United States Steel research and a vast pool of agricultural talent. The most modern equipment and facilities are included as a necessary ingredient. We add special services, emphasize attention to details, insist on products of quality, and work conscientiously and skillfully to plan a soil fertility program just for you. Our approach is augmented by maximum integrity and a tradition of providing personal assistance. The result is E.M.S. Here are some specifics of Extra Measure Service:

For the first six hours, Armstrong and Scott are to chase an Agena space vehicle in an effort to achieve man's first linkup with an orbiting satellite.

On the second day, Scott is to take a record space walk of nearly 2½ hours during which he is to evaluate how well man can maneuver and work outside a space, ship. He is to float about on the end of a 100-foot lifeline, guiding himself about with a gas-propelled jet gun.

To familiarize themselves with the strange sensation of space weightlessness, the actiro nauts journeyed to nearby Patrick Air Force Base and went aloft in a KCl35 transport.

Launch crews on two pads were preparing for an exercise Wednesday called a simultaneous properties of the strange sensation of practice complexity, of simultaneously conducting 11 separate countdowns. These include the Atlas which will boost the Agena: the

Fees Deferred

WASHINGTON (AP) In creased grazing fees on Bureau of Land Management land have been defer-red until March 1, 1967, Sen. Len Jordan said Tues-

The increase had been planned for the 1966 grazing year to compare with Forest Service fees, Jordan 'said, but was deferred for further study of the BLM grazing fee structure.

Grazing will be paying slightly higher fees this year, Jordan said, but they will reflect higher market prices for livestock in 1965, not a basic fee increased.

Uniform Time

WASHINGTON (AP)—The, House Interstate Committee today approved legislation designed to provide unifor-mity in observing daylight

savings time.

Similar to a measure passed last year by the Senate, the bill would allow the Interstate Commerce Comtime for any or all of the existing time zones between the last Sunday in April and

the last Sunday in October.
States would be permitted
by acts of their legislatures by acts of their legislatures to exempt themselves from the program, but the exemption would have to apply on a statewide basis.

The proposed law would become effective on April 1, 1967.
